Manufacturers of HDPE smoothwall 1/2" to 4". Available preinstalled Muletape®, rope and CIC (Cable In Conduit). Manufactures industrial grade building wire, multi-conductor substation control cables, armor cables, custom cables, pump and irrigation cables, sprinkler control cathodic protection and low voltage. Today, the Company regularly produces shielded and non-shielded control cables up to 500 MCM in size.

UGS stock. Plant located in Chowchilla, CA, *ICEA-UL-Cal Trans Approved*

Duct spacers, Kwikie mechanical plugs, and temporary Poly plugs, Wedge Seal cable termination plugs, duct cone projectiles, inner duct cup projectiles, Sch 40 PVC caps, riser caps, couplings, swedged reducers and reducer bushings.

UGS stock. Located in National City, CA.

Manufactures 8" and 12" man hole ventilation blowers. Transformer cooling fans from 12" to 27". Vault ventilation including swing-out blowers available in 9" or 18" from 450 CFM to 6,460 CFM, made specifically for underground vaults and electrical rooms.

UGS stock. Plant located in Fontana, CA, *ISO-9001:2000 Certified*

UL Listed Fiberglass can be used for above ground and underground needs. Used under bridges, tunnels, airports, prisons, U.G. transmission lines and water treatment plants. We make Fiberglass Conduit, Fiberglass Bridge Hangers, Fiberglass Strut and Fiberglass Instrument Channel. We comply with Federal "Buy American" Clause.

UGS stock on Edison Risers. Plant located in Spring, TX. *ISO-9001:2000 Certified, UL Listed*

Tools and equipment for aerial and underground cable installations. Telephone and Power cable pullers 3,000 lb, 6,500 lb and 12,000 lb. State of the art Fiber Optic cable blowers and pullers. Duct rodders, swivels, pulling eyes, pulling grips, cable guides and accessories.

Stringing equipment & accessories for high voltage power lines. All equipment completely hydraulically controlled for smooth speed variation. This helps eliminate rope and conductor galloping. Negative brake keeps tension on the line if the machine is shut off.

Field demos available. Plant located in Mankato, MN, *ISO-9001:2000 Certified*

Muletape®, is a Pre-lubricated pulling and measuring tape that greatly reduces duct burn through and gives you an economical way to measure ducts. Also available is Detectable Muletape®, Mulegun®, Cable Manager® and PM 3/16 measuring tape.

UGS stock. Plant located in Granite Falls, NC. *ISO-9001:2000 Certified*

Our locators are designed to withstand the rigors of daily on-site usage. Schonstedt user-friendly Pipe & Cable Locators give you the depth of what your locating and also the option to use a Sondes to locate through empty duct. Magnetic locators have been setting the standards for reliability and dependability for nearly half a century.

Field demos available. Plant located in Kearneysville, WV.
